# POCKET PRO JUMPING HL 400-J

**TAG Heuer Professional Timing** launches the dedicated sports App. on its brand new and unrivalled **Pocket Pro** professional digital stopwatch.

The **Pocket Pro professional digital stopwatch** is the latest of TAG Heuer's Professional Timing development regime.

It sets a new benchmark for high-precision handheld timekeeping.

Additional to the three exclusive timing modes dedicated to **Jumping** (1 Phase, 2 phases / immediate Jump-off , 2 phases), this 1/100th second handheld timepiece also encompasses standard stopwatch modes, including Split / Lap time measurement, countdown, and time of day memory

Together with its integrated USB connector and free application **Pocket Pro Manager** and supported by Pocket-Pro's internal memory of 800 measurements, downloading, analysis, printing and archiving of results are extremely simple and can be viewed or printed instantly from your laptop or PC.

The aluminum body and its PVD surface treatment provides a solid and robust device to cater for demanding conditions

Pocket Pro brings to the world of Show Jumping the unique ability to manage Single Phase, 2 Phase & 2 Round competition giving judges a professional backup solution, course builders a method to assess and correct course design, training schools and coaches the ability to monitor and perfect performance.
